Huge Amethyst Find in North Carolina. May, p. 336.
Anorthsites—*The Mystery of the Anorthsites.* Dec., p. 637.
Brochantite—*Brochantite.* Richard Green. April, p. 236.
Calcite—*A Weekend Mineral Collecting Trip to Ontario.* Anthony Dunn. Sept., p. 469
Collinsite—*Collecting in British Columbia.* Paul L. Broughton. May, p. 291.
Concretions—*Concretions.* Paul Carlson, Mar., p. 154.
Copper—*Collecting in British Columbia.* Paul L. Broughton. May, p. 291.
Collecting at the Pennsylvania Copper Mines. William J. Klunk. Feb., p. 129.
Collecting in British Columbia. Paul L. Broughton. June, p. 355.
Erionite—*Erionite or Offretite?* Bernard M. Dubeski. Oct., p. 558.
Ferrierite—*Collecting in British Columbia.* Paul L. Broughton. May, p. 289.
Flint—*A Story of Flint.* Eleanor Huston. Oct., p. 554.
Flourescents—*Florence Hansen—First Lady of Minerals.* Ervan F. Kushner. Nov., p. 579.
Garnets—*Garnets.* Richard Gillen. April, p. 271.
The Garnet Group. David E. Jensen. Nov., p. 584.
Geodes—*Geode Sawing Suggestion.* Oct., p. 560.

Gold–*Don't Buy a Gold Brick.* Frank Mayo. July-Aug., p. 444.
More About Gold. July-Aug., p. 445.
Old Fever Revives in Cripple Creek. April, p. 272.
Vermont Hard Rock Gold Mines. William W. Wojnicki, Jr. Jan., p. 65.
Magnetite–*Magnetite Deposits of Putnam County, New York.* Henry Truebe. April, p. 225.
Marble–*Georgia's Unique Stone.* Cecil Boatwright. July-Aug., p. 423.
Meteorites–*Meteorites on a Long, Adventuresome Journey.* Harry G. Johnson. June, p. 391.
New Fallen Meteorites Are Not Found Without Full Cooperation. Harry G. Johnson. Mar., p. 152.
OMSI Meteorite Exhibits Aid in Solving Past Sky-Fall Mysteries. Harry G. Johnson. April, p. 265.
Molybdenite–*Collecting in British Columbia.* Paul L. Broughton. May, p. 291.
Mozarkite–*The Mozarkite Story.* Mar., p. 151.
Nickel–*The Dumbarton Nickel Mines of Bird River, Manitoba.* Paul L. Broughton. July-Aug., p. 419.
New Caledonia: A Nickel for Your Thoughts. Mar., p. 202.
Offretite–*Erionite of Offretite?* Bernard M. Dubeski. Oct., p. 558.
Pegmatites–*Pegmatite Minerals of Maine.* David M. Seaman. *Part I.* Mar., p. 147. *Part II.* April, p. 240. *Part III.* May, p. 312. *Part IV.* June, p. 366.
Platinum–*Platinum.* E. W. Courter. Nov. p. 610.
Prophyry–*Collecting in British Columbia.* Paul L. Broughton. May, p. 291.
Pyrite–*A Weekend Mineral Collecting Trip to Ontario.* Anthony Dunn. Sept., p. 469.
Rhodochrosite–*Working Rhodochrosite.* Dec., p. 644.
Root Casts–*Collecting in British Columbia.* Paul L. Broughton. June, p. 355.
Silver–*Is It Really Sterling?* April, p. 267.
Sulfates–*Some Sulfate Minerals of Meigs County, Ohio.* Henry L. Fisher. July-Aug., p. 416.
Collecting at Sneech Pond, Cumberland, Rhode Island. Marianne Monahan. July-Aug., p. 413.
Talc–*Polishing Talc.* Richard Chappell, Jr. Oct., p. 553.
Tektites–*The Origin of Tektites*–Daniel E. Russell. Sept., p. 474.
Tin Oxide–*Beat the High Price of Tin Oxide.* Jan., p. 24.
Tourmaline–*The Pecularities of Tourmaline.* Feb., p. 90.
Turquoise–*Some Things You Should Know about Turquoise.* Fred Trauger. Feb., p. 83.
The Turquoise of Iran. Hashem Fayaz and Abdol-Hosseim Forghani. Oct., p. 526.
Virginian Turquoise Crystals. Daniel E. Russell. Mar., p. 176.
World's Largest "Turquoise Monolith." June, p. 388.
Zinc–*Arkansas' Rush Creek Zinc District.* Dana Martin Batory. *Part I.* April, p. 238. *Part II.* May, p. 309.
